

SATHISH MYILSAMY

Full Stack Web Developer

My responsibilities include developing new user-facing features, determining the structure and design of web pages, building reusable code, optimizing page loading times, and using a variety of markup languages to create web pages. My skill set is a unique combination of technical knowledge and interpersonal skills. From a technical standpoint, I am proficient in web technologies. Interpersonally, I excel in problem-solving and collaborating effectively within teams.

WORK EXPERIENCE

Junior Associate Technology

Publicis Sapient

07/2022 - 09/2022

Bangalore, Karnataka, India

"I have learned the web language required to create the fundamental structure of a website. I have also acquired new skills and have been using them regularly to enhance my productivity and efficiency at work. By redesigning the team's workflows, I have managed to increase our productivity by 25% and save more than 10 hours per week. I actively participate in continuous improvement by providing suggestions and engaging in problem-solving activities that promote teamwork."

Junior Associate Experience Technology

Publicis Sapient

10/2022 - 12/2022

Bangalore, Karnataka, India

"I am in charge of developing a mobile application that prioritizes functionality on mobile devices and adapts to different screen sizes. As part of my role, I make sure that the user experience and interface designs are feasible from a technical standpoint. Our team engages in team-building activities to strengthen our working relationships. Additionally, I collaborate with the UI/UX team to implement their designs effectively, prove the design and functionality of new web pages."

Associate Technology L1

Publicis Sapient

01/2023 - 05/2023

Bangalore, Karnataka, India

"I have demonstrated my ability to work efficiently and effectively under pressure and in a fast-paced environment. I approach all interactions with respect, friendliness, and a willingness to assist in any way possible. I work collaboratively with my colleagues in research and design to create user-friendly web pages."
