

SATHISH MYILSAMY

FULL STACK WEB DEVELOPER

My responsibilities include developing new user-facing features, determining the structure and design of web pages, building reusable code, optimizing page loading times, and using a variety of markup languages to create web pages. My skill set is a unique combination of technical knowledge and interpersonal skills. From a technical standpoint, I am proficient in web technologies. Interpersonally, I excel in problem-solving and collaborating effectively within teams.
