Summary

I am an experienced Full Stack Web Developer who always strives to exceed expectations. I am highly motivated, and adaptable, and possess excellent interpersonal skills. I work effectively without supervision and have a knack for quickly mastering new skills. As an organized and motivated employee, I am eager to apply my time management and organizational skills in various environments. I am currently seeking entry-level opportunities to expand my skills while contributing to the growth of a company.

Experience

PUBLICIS SAPIENT - ASSOCIATE TECHNOLOGY L1
BANGALORE, INDIA
01/2023 - 05/2023

- Developed and implemented a web-based application using HTML, CSS, JavaScript and React.js.
- Implemented server-side functionality for an application using Node.js and Express.js.
- Created automated unit tests to ensure the accuracy of code written in Java.
- Designed and developed a RESTful API with MongoDB as the back end database.
- Collaborated with other developers on coding projects utilizing Git version control system.
- Debugged existing applications and identified solutions to resolve issues quickly.
- Optimized frontend performance by implementing caching strategies such as Redis.
- Built reusable UI components that could be used across multiple projects.
- Integrated third-party APIs into existing applications for data retrieval and manipulation purposes.
- Developed responsive design layouts for mobile devices using media queries and Bootstrap framework.
- Configured databases like MySQL, PostgreSQL., for optimal performance of applications.
- Developed React applications using Redux state management and RESTful APIs.
- Created custom components, forms, and interfaces for user interactions in React.
- Debugged and resolved issues related to React components.
- Integrated third-party libraries into existing React applications.
- Built reusable UI components that can be used across multiple projects with React.
- Optimized performance of existing React applications by utilizing best practices such as code splitting, lazy loading.
- Collaborated closely with UX and UI designers to ensure the best possible user experience while developing React applications.

PUBLICIS SAPIENT - JUNIOR ASSOCIATE EXPERIENCE TECHNOLOGY
BANGALORE, INDIA
10/2022 - 12/2022

- Developed complex JavaScript applications to meet customer requirements.
- Analyzed and modified existing code to improve performance and scalability.
- Created reusable components, libraries and plugins for use in other projects.
- Collaborated with other developers to ensure code consistency and quality.
- Performed debugging of front-end applications using Chrome Developer Tools.
- Researched new technologies and frameworks such as ReactJS, Node.js.
- Integrated third-party APIs into web applications using AJAX calls and JSON data formats.
- Built dynamic user interfaces utilizing JavaScript libraries like jQuery UI and Bootstrap.
- Maintained version control systems such as Git for tracking changes in source code over time.
- Monitored website performance metrics to identify and resolve issues quickly.
- Researched new technologies and frameworks such as ReactJS, Node.js, Express.js.
- Optimized website speed by minifying HTML, CSS and JavaScript files.
- Deployed updates to production environments following established release protocols.
- Identified security vulnerabilities within web applications through penetration testing.
- Assisted in developing strategies to increase site traffic via SEO optimization techniques.
- Designed interactive elements on websites based on user feedback and analytics data.
- Developed responsive design solutions that are optimized for mobile devices.

PUBLICIS SAPIENT - JUNIOR ASSOCIATE TECHNOLOGY
BANGALORE, INDIA
07/2022 - 09/2022

- Created cross-browser compatible webpages using HTML, CSS, and JavaScript.
- Developed and implemented CSS stylesheets to improve website's visual appeal.
- Collaborated with other developers to optimize the design of websites.
- Optimized existing code for better performance across multiple devices.
- Created user interface elements such as icons, buttons, forms. using CSS3 techniques.
- Integrated responsive design principles into existing websites for improved usability on mobile devices.
- Implemented modern front-end frameworks such as Bootstrap or Foundation to streamline development process.
- Built reusable components that can be used across multiple projects while adhering to best practices.
- Tested and debugged code for various browsers to ensure compatibility.
- Maintained and updated existing websites using HTML5 and CSS3 technologies.
- Utilized preprocessors like SASS or LESS to reduce time spent writing code.
- Integrated data from external sources into web pages using AJAX requests and JSON objects.
