SKILLS

- Adaptability
- Fast Learner
- Team leadership
- Ability to Multitask
- Communication Skills
- Professionalism

EDUCATION

BE-Computer/Information Science & Engineering,
Kumaraguru College of Technology(KCT),
Coimbatore, Tamil Nadu
08/2018 - 06/2022
8.02 CGPA

12th-Computer Science,
Velavan Matriculation Higher.Sec.School,
Tiruppur, Tamil Nadu
03/2017 - 03/2018
77.41%

10th-Mathematics,
Velavan Matriculation Higher.Sec.School,
Tiruppur, Tamil Nadu
03/2015 - 03/2016
88.40%

SUMMARY

I have specialized expertise in JavaScript and the MERN Stack. I am skilled in both front-end and back-end development, possess database management skills, and can seamlessly integrate APIs. I collaborate well with cross-functional teams and deliver projects within stringent timelines. I am committed to continuous professional growth and innovation and have a track record of exceeding client expectations while maintaining quality and project goals.

EXPERIENCE HISTORY

ASSOCIATE TECHNOLOGY L1
PUBLICIS SAPIENT, BANGALORE

- Implemented server-side functionality for an application using Node.js and Express.js.
- Created automated unit tests to ensure the accuracy of Java code.
- Designed and developed a RESTful API with MongoDB as the back-end database.
- Collaborated with other developers on coding projects utilizing the Git version control system.
- Debugged existing applications and identified solutions to resolve issues quickly.
- Optimized front-end performance by implementing caching strategies like Redis.
- Built reusable UI components that can be used across multiple projects with React.
- Build layouts with responsive design for mobile devices by utilizing media queries and the Bootstrap framework.
- Configured databases like MySQL and PostgreSQL for optimal performance of applications.
- Optimized performance of existing React applications by utilizing best practices such as code splitting and lazy loading.

JUNIOR ASSOCIATE EXPERIENCE TECHNOLOGY
PUBLICIS SAPIENT, BANGALORE

- Analyzed and modified existing code to improve performance and scalability.
- Created reusable components, libraries, and plugins for use in other projects.
- Collaborated with other developers to ensure code consistency and quality.
- Performed debugging of front-end applications using Chrome Developer Tools.
-

Researched new technologies and frameworks like ReactJS and Node.js.

- Integrated third-party APIs into web applications using AJAX calls and JSON data formats.
- Built dynamic user interfaces utilizing JavaScript libraries like jQuery UI and Bootstrap.
- Maintained version control systems like Git to track changes in source code over time.
- Monitored website performance metrics to identify and resolve issues quickly.

JUNIOR ASSOCIATE TECHNOLOGY

PUBLICIS SAPIENT, BANGALORE

- Created webpages compatible with different browsers using HTML, CSS, and JavaScript.
- Developed and implemented CSS stylesheets to enhance the website's visual appeal.
- Worked collaboratively with other developers to optimize the website's design.
- Optimized existing code to improve performance on different devices.
- Created user interface elements such as icons, buttons, and forms using CSS3 techniques.
- Integrated responsive design principles into existing websites to improve usability on mobile devices.
- Utilized modern front-end frameworks like Bootstrap or Foundation to streamline the development process.
- Built reusable components adhering to best practices that can be used across multiple projects.
- Tested and debugged code for various browsers to ensure compatibility.
- Integrated data from external sources into web pages using AJAX requests and JSON objects.

TECHNICAL SKILLS

- Languages: C, C++, JavaScript

- Web Technologies: ReactJS, NodeJS, Express, HTML5, CSS3, JSON, RESTful APIs and Bootstrap

- Database: SQL and PostgreSQL

- Testing Tools: Jest

- IDE/Tools: Visual Studio, Atom, Code::Blocks, Postman, Git
